

Mapesoil – Improving Sports Surfaces from the Ground Up

November 3, 2022 / 1 p.m. EDT

This presentation will provide an overview of best practices for soil stabilization using MAPEI'S *Mapesoil* system of products.

Participants will learn:

- Why it is important to effectively stabilize soil prior to sports-surface installations.
- How MAPEI's *Mapesoil* products work together to consolidate and stabilize subbases, enhancing the performance of the playing surface.
- Potential problems that are related to unstable subbases and how to avoid them.

WEBINAR

Mapesoil™ – Improving Sports Surfaces from the Ground Up

November 3 at 1 p.m. EDT

Duration: 60 min.*

* The Webinar will include a question-and-answer period.
